Repeated Glycemic Testing

CASE 03 | FICTIONAL PERSON | NO REAL PATIENT DATA

Synthetic model-evaluation document. Not for clinical use. Do not use these values to make decisions about a real person.

Outpatient assessment

A 47-year-old woman reports six weeks of increased thirst and urination. She has no vomiting, abdominal pain, altered mental status, or recent acute infection. Weight is stable.

Vitals: BMI 32 kg/m2, blood pressure 132/82 mmHg. The note documents no pregnancy and no glucocorticoid or antipsychotic exposure.

Relevant history	No prior diabetes diagnosis or pancreatic disease.
Family history	Mother and two siblings have type 2 diabetes.
Medication	No glucose-lowering medication. No systemic steroid use in the prior six months.
Testing conditions	Both glucose samples followed at least 8 hours without caloric intake.
A1c method	Laboratory method is NGSP-certified and DCCT-standardized.

All names, dates, histories, values, intervals, and notes in this case are fabricated.

First collection

Initial testing was performed at a clinical laboratory. All values below are from the same date.

Test	Result	Unit	Printed reference interval	Report flag
Fasting plasma glucose	146	mg/dL	70 - 99	H
Hemoglobin A1c	7.2	%	4.0 - 5.6	H
Hemoglobin	13.2	g/dL	12.0 - 16.0	
Ferritin	92	ng/mL	15 - 150	
Creatinine	0.78	mg/dL	0.50 - 1.00	
Urine ketones	Negative		Negative	

All names, dates, histories, values, intervals, and notes in this case are fabricated.

Confirmation and classification context

Repeat glycemic testing was performed eight days later. No acute illness or change in medication occurred between collections.

Test	Result	Unit	Printed reference interval	Report flag
Fasting plasma glucose, repeat	143	mg/dL	70 - 99	H
Hemoglobin A1c, repeat	7.1	%	4.0 - 5.6	H
C-peptide	2.6	ng/mL	0.8 - 3.5	
GAD65 antibody	Negative		Negative	
IA-2 antibody	Negative		Negative	
ZnT8 antibody	Negative		Negative	
Hemoglobin variant screen	No variant detected			

All names, dates, histories, values, intervals, and notes in this case are fabricated.
